[FM](#) Second Phase Rules and Topic Selection Closing
di [Francesco Marchiori](#) - mercoledì, 25 ottobre 2023, 10:58

Dear Students,

The topic selection questionnaire will close on **Friday (Oct 27th) at 4 p.m.** If you haven't selected a topic yet, please do it by this deadline. Requests coming after the deadline will not be considered and will result in the students doing the exam as non-attendants (i.e., skipping phase two of the course and doing a bigger project for phase three).

We are in the process of publishing the schedule for the presentations. In the meantime, you can find the schedule for the first lectures. Except for some lectures, in all lessons, there will be three groups presenting a topic. Each group will have 20 minutes for the presentation, followed by 10 minutes of Q&A in which other students will ask provoking questions to the lecturers. Lectures composed of four groups will have 15 minutes for the presentation and 10 for the Q&A. Please help us by keeping your presentation strictly on time.

For the provoking questions, each student should select **three lessons** in which they should actively participate in class during the Q&A part of the presentations. To do that, students need to read the papers on the presentation topic beforehand (at least the primary paper) and formulate **at least two provoking questions per topic**. We will evaluate your participation during the lecture, but since the time is limited, we ask you to upload the questions on a form (which will be published on Moodle) at most the day before the lecture.

If something is unclear, feel free to ask for clarifications during the lectures or drop us an email.

Have a nice day!

Best,

The Teaching Team
