Dear Students,

As you know, the third and final part of the course consists of a project session. Each student group must choose a lecture and arrange the structure with the designated supervisor. Alternatively, students can propose a project to a most suitable supervisor for that topic.

Each student group must prepare a maximum 10-page essay (references excluded) about the project topic. The students are asked to give a 15-minute presentation (supported with slides). The oral examination dates are published for the winter session, January 26th and February 12th). The essay must be delivered by email to the teaching staff.

If you have any further questions, do not hesitate to contact us.
